

Position: Landscape Architect/Restoration Practitioner
Start Date: ASAP
Status: Part Time
Salary: D.O.E.

Fred Phillips Consulting (FPC) is looking for an entry/mid-level Landscape Architect/Restoration Practitioner. This position will be a work from home situation with the exception of the field work required. the last 25 years Fred Phillips has been a leader in resource management, landscape design and ecological restoration in the southwest. This position will include (but not be limited to) the following duties:

- Assisting in a large scale GIS riparian vegetation mapping project
- Assisting in completing restoration plans and design documents
- Performing analysis on restoration sites including wetland delineation, vegetation surveys and soil analysis.
- Performing native seed collection in remote areas as part of a crew
- Assist with writing and editing technical work documents
- Completing ARC GIS/CADD mapping/design of large scale restoration projects.
- Developing perspective sketches, renderings and details of designs.
- Assisting with design details, research and presentation graphics
- Writing grant applications

Must have a degree in Landscape Architecture, Wildlife Biology, Ecological Restoration, Environmental Engineering or similar and practical experience in the field. Must have strong graphic design and writing skills and be able to work independently. Must be proficient in Arc GIS, and ADOBE CS and Microsoft office. Cadd skills not required but preferred. Technical writing skills, working in challenging remote field conditions, outdoor guiding/field experience, landscape construction and experience working with diverse cultures preferred.

If you want to learn ecological restoration planning, design, fundraising and construction and work with diverse communities this is the job you've been waiting for.
